

Lighting Control Dimmer

Features:

- Dimmer is a touch panel switch with three buttons.
- By touching the three buttons, user can dim or bright the lighting.
- The panel can work independently or be controlled through remote control, smart phone or tablet.

Model	S-D100
Power input	AC180V-220V/50/60Hz
Load type	Filament Lamp
RF receiving flexibility	-100dBm
Standby current	0.08mA/AC220V
Rated power	10W-300W
RF Frequency	433.92MHz
Effective control distance	10m
ASH-WRF control distance	20mW
Working temperature	-10° C ~ 50° C
Dimensions	86*86*10mm
